This provides the table of contents and chapter 1 from the CDPHE 03 PPA. As with the other R8 states, overview, priorities, cross cutting initiatives, business processes and so forth are addressed in Chapter 1. I can extract other sections based on the index, and not run up against email limits on size of attachments.

The proper formatting in the PDF collapsed when this PPA was transferred, but it provides enough information to determine if there is anything of use here. With some tweaking, we can circulate the significant pages in the correct format, from this or any of the older PPAs. (those that exist only on hard copy)
